Profile Summery

An ISTQB – Foundation Level certified tester and a trained fresher in Software Testing, with Two years of experience, looking forward to work with any account where I can fully utilize my training and skills. I am eager to collaborate with cross-functional teams, implement efficient testing strategies, and provide valuable insights to enhance the overall quality of Core Competencies.

Technical Skills

- Manual Testing
- Core Java
- Mobile Testing
- Automation testing
- TestNG
- SQL
- Maven
- API Testing

Tools and Technologies

- Manual Testing
- Selenium
- Eclipse IDE
- ADB Shell
- Postman
- JIRA

Educational Qualifications

- Bachelor of Technology (2019-2022) in Computer Science & Engineering at B V Raju Institute of Technology with (75%).
- Diploma (2016-2019) in Computer Engineering at Government Polytechnic Masabtank, Hyderabad with (81%).
- SSC (2016) at Zilla Parishath High School with (88%).

Achievements & Certifications

- ISTQB- Certified Tester Foundation Level (CTFL) 2022.

Work Experience

Virtusa Consulting Services PVT LTD (June 2022 - Aug 2024):

Responsibilities

- Contributing strategically to identify user requirements and plan test activities
- Efficient team coordination to complete project on time.
- Preparing test scenarios, testcases, test scripts.
- Creating Automation Test suite.
- Executing automation tests with Selenium Web driver & TestNG framework.
- Maintain meticulous attention to detail while performing testing activities.
- Collaborate with team members to ensure successful and on-time delivery of results.
- Document test cases, procedures and outcomes for further references and analysis.
- Actively participate in team meetings sharing insights and suggesting improvements.

Projects

As a Manual Tester for the Nyka and BIBA application, I designed and executed comprehensive test cases to ensure robust functionality and high-quality deliverables. I conducted functional and regression testing to validate critical features, including user login, registration, and profile management. Additionally, I verified essential processes such as product search, cart management, checkout, and order confirmation. Collaborating with cross-functional teams, I facilitated User Acceptance Testing (UAT) to deliver user-centric solutions. I also utilized defect tracking tools to report and manage issues, contributing to continuous improvement in testing processes.

Flipkart:

As an Automation Tester for Flipkart, I automated key e-commerce features using Java, Selenium, Eclipse, and TestNG. I prepared and executed test cases, conducted cross-browser testing, and managed the project build with Maven. Detailed reports generated via Extent Reports provided critical insights, enhancing the platform's reliability.

Yatra Mobile Application:

As a Tester for the Yatra application, I focused on Mobile Manual Testing using ADB Shell. My role involved executing Quality Assurance Test Cases (QATC) to ensure the app's functionality and performance. I captured log files, screenshots, and screen recordings to document test results, providing valuable insights for improving the application's quality and user experience.
